

Buck Mesa #1 Well Log
Sonic Transit Time, ms

Normal Fault Zone
Top of Paradox Salt
Broken dipping Layers

Murphy Range Unit #1
Gamma Ray Log

Pre-stack depth migration image for Section 2 (rad direction), with Buck Mesa #1 well sonic log and Murphy Range Unit #1 gamma ray log. The top of the Paradox salt correlates well with the logs, despite migration artifact arcs. Images of normal fault planes and fault-broken stratigraphy appear above the salt.
